My Thoughts

I really enjoy this film, it's a must-watch for anyone new to Riot Grrrl (it's free on Youtube). It was so interesting to listen to Kathleen talk about her journey as an artist and activist. Seeing how she spread her message and took action to see the change she wanted in the world changed my life forever. She is living proof that you don't need a stage to the whole world to make a difference. You just need to do something.

At this show We ask that girls/women stand near the front, by the stage. Please allow/encourage this to happen This is an experiment.
